

For nearly half a century, the Islamic Republic of Iran — the world's **leading state sponsor of terrorism** — has killed and maimed American citizens and service members through its own forces and proxy militias. More Americans have been killed by Iran than any other terrorist regime on Earth.

President Donald J. Trump is doing what Presidents over the last five decades have refused to do — eliminate the threat once and for all. By destroying Iran's missiles, annihilating their navy, and ensuring they can never obtain a nuclear weapon, the Trump Administration's bold and decisive action is protecting American lives and advancing American interests.

Here is only a partial record of the Iranian regime's blood-soaked war on Americans:

November 1979: Iranian students, backed by the regime, **seized** the U.S. Embassy in Tehran — taking 66 Americans hostage in a **444-day standoff**.

April 1983: The Islamic Jihad, an Iran-backed terrorist group, **carried out** a suicide car bombing at the U.S. Embassy in Beirut, killing 17 Americans.

October 1983: Iran-backed Hezbollah terrorists **killed** 241 U.S. military personnel — including 220 U.S. Marines and 21 other service personnel — in a truck bombing at a Marine compound in Beirut.
